

# Our Goals

Our goals are to go and make disciples of all the nations, assist in baptizing them in the name of the Father and the Son and the Holy Spirit. We will teach these new converts to obey all the commands Jesus and the prophets have given us. And we know the Lord will be with us always, even to the end of the world.

# Personal Ministry Work

This website is set up for you who would like to do some more personal Christian work for God, from the comfort of your home. With this website, your reach has been extended from going door-to-door or meeting someone on the road, to start having Bible studies, religious discussions, Q&A sessions, etc.

Special Church Event

We are called to proclaim “the everlasting gospel” (Rev. 14:6) to the entire world. By so doing, we are simply obeying Jesus’ words about making disciples, baptizing them, and “teaching them to observe all things that I have commanded you” (Matt. 28:20, NKJV)

Your Own FREE Personal Ministry Website

Church Events

We think you'll like it here.

Why don't you check out the religious programs you're interested in?

Click to view our programs

For many years of being involved in church activities, planning church programs, there is one major thing that sticks out from most of the issues, and that is the frustration that you get sometimes when you advertised programs or meetings and let everyone knows the date and time of the event, but when the event comes around, only a few people showed up. You had no clue who were planning NOT to attend! Even with department meetings, not everyone would show up, so you are force to continue with the handful that attended.

“The harvest truly is plentiful, but the laborers are few (Matt. 9:37)”.

This will help you!

## This online website application

will help to ease the anxiety and frustration of staging meetings and events by streamlining and offering a better way to manage church events. These are the main features:

- 1) Create public or private events.
- 2) Attendees can register for the event; if it is a department meeting, you will see a list of those who are planning to attend and those who decided not to attend.
- 3) A central location for your past and current events.
- 4) Ability to collaborate with other churches about similar events.

## Online Service

In these days of advanced technology, most of the things we do nowadays have to do with the Internet: emails, social media, videos, etc. For example, preaching the word of God; the message itself has gone out around the world because of the Internet. I believe that we should continue to use the Internet to make the work of evangelizing the Gospel of Jesus Christ easy for anyone who is willing to work.

## Show Those Who Registered

The creator of the event can see a list of those who are planning to attend, and if it is a Church Department meeting, a list of those who cannot make it to the meeting will be displayed also.

## Program List

### Church Department Meetings

The programs are used to categorize the events. It is up to the creator of the event to choose which program the event is best suited for.

The **Department Meeting** is the only special category and is recommended for church department meetings, such as board meetings, personal ministry, Sabbath school council meeting, etc. This category has a "YES" or "NO" option to let the organizer know who will be attending.
